

AWARDS-PROGRAM.COM

Simplify, Satisfy and Save with the Proprietary Recognition Software Solution

In this economic climate, the demand for improved performance continues to grow at an exponential rate. Mirroring this trend is the need for a timely, effective, cost-efficient process to recognize top achievers. Now just a click away, E.A. Dion's newly released **Awards-Program.com** is a web-based recognition software solution which features a user-friendly ordering and administrative platform for award rings and award ring upgrades.

The proprietary Awards-Program.com allows you to:

- **Simplify** and streamline the recognition ordering process;
- **Satisfy** the recipient's need for positive, immediate and certain recognition; and
- **Save** your end-user and the organization time, money and valuable resources.

We appreciate that every business is unique and have designed Awards-Program.com with Standard and Custom sites to adapt to companies of all sizes and budgets.

Standard Site offers a choice of three graphic approaches for the Log-in and Thank You pages (one option shown) as well as Ordering Information and Confirmation pages.

Custom Site complete with A-Z customization and graphics specific to your company or program.

Regardless of which program you choose, the emphasis is on easy, self-serve, on-line ordering of "add a diamond" ring opportunities complimented with a "hands-off" administrative process.
